Welcome to the ninth edition of the ICD-10 Lifeline. Hot off the press—CMS has confirmed the new ICD-10 implementation date as Oct. 1, 2015. What exactly does that mean for Beaumont? In our survey last issue, we asked you to answer questions related to the delay of ICD-10. Seventy-five percent of respondents stated that they were relieved by the delay, and 60 percent of respondents said that they still had plans to do some sort of ICD-10 training this year. We think it’s great that so many of our readers still see the value of training early for ICD-10 and encourage all of you to stay this course. We will continue to keep you informed of ICD-10 training options as we learn of them, and we hope that once Oct. 1, 2015, comes around ICD-10 will be old news for us.

ICD-10 Diagnosis & Documentation Tip of the Week

This week’s diagnosis & documentation tip of the week is a TWOFER – Urinary Tract Infection and Sepsis

**Diagnosis:** Urinary Tract Infection

**Additional Documentation Requirements**
Organism causing the infection (B95 – B97)
Site of the UTI, if known i.e. bladder, urethra, kidney
*If related to a device, i.e., Foley cath, cystostomy tube – using words such as “due to” or “secondary to”*

**Diagnosis:** Sepsis

**Additional Documentation Requirements**
Organism causing the infection
Associated organ failure
Presence of septic shock (if applicable)
*Use additional code, if applicable, to identify:

Pseudomonas  A41.52
Serratia  A41.53
Other gram negative  A41.59

Note: If you have a diagnosis that you would like to see discussed in a future issue, please let us know by taking the survey below.

IT Update

As we continue to evaluate the project timeline, we are working with payors to assess the payor readiness. Stay tuned for more information.

Training & Education Update

The ICD-10 team is currently awaiting the decision of executive leadership for a corporate-wide direction for ICD-10 training and education in light of the delay in the implementation of ICD-10. Because of this, all live training sessions in grand rounds and business meetings have been postponed. Please stay tuned to future newsletters to learn more about what training will be offered by Beaumont in the near future.

Even though Beaumont’s live training sessions have been postponed, there are still many training options outside of Beaumont that are being offered. If you come across any ICD-10 materials, be sure to let us know using the survey below so that we can share them with everyone!

Miss an issue of the ICD-10 LifeLine? Check out our page on Beaumont Doctor Online to read all of our previous issues.

Give us your feedback through our short online survey

We hope you found this edition of the ICD-10 LifeLine to be useful! This issue, we have decided to forego our usual survey surrounding ICD-10 and instead have decided to do a fun poll. Tell us what your favorite flavor of ice cream is here:

https://www.surveymonkey.com/s/JZTT5G7

Thank you for reading. Look for the next issue to come out on May 21!
