

14th ANNUAL
Vascular Innovations Conference

Feb. 17-18, 2017

Detroit Marriott, Troy
Troy, MI

Beaumont

The **Vascular Innovations Conference** has been a tremendous success from its beginning. It has grown from a single department to multi-institutional endeavor, drawing attendees from throughout the Great Lakes region. The 14th Annual Vascular Innovations Conference will maintain the tradition of diverse clinical approach, with nationally recognized faculty representing the multidisciplinary nature of vascular disease. The conference will focus on hemodynamics, vascular quality initiatives, and the elements of quality imaging studies.

14th ANNUAL Vascular Innovations Conference

Target Audience

This conference will provide physicians (cardiovascular, vascular medicine, vascular surgery, interventional cardiology, interventional radiology, internal medicine and family practice), as well as vascular technologists, sonographers, residents, fellows, physician assistants and nurses a better understanding of vascular disease, technical advances, clinical applications and interpretation criteria for non-invasive vascular studies.

CME Accreditation and Credit Designation

William Beaumont Hospital is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

William Beaumont Hospital designates this live activity for a maximum of 11.75 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Non-physician professionals should check with their individual credentialing bodies to confirm that participation in this CME activity will be approved for credit. CME credits can be used to meet the continuing education requirements needed for Michigan physician assistant and nursing relicensure without limitation.

Objectives

As a result of attending this conference, participants should be able to:

- demonstrate understanding of current treatment options for venous disease
- successfully implement vascular quality initiatives
- understand the role of ultrasound in the diagnosis and management of disease

Program Highlights

- carotid intervention
- venous ablations
- simplified musculoskeletal ultrasound
- venous disease
- dialysis access evaluation
