Areas Of Need	Accommodations, Aids, Services, Other Supports	Person Responsible
Assessments Classroom tests	 Student's BG at the time of the assessment/classroom tests will be documented on all classroom assessments as needed. Student will have the option to delay taking an assessment until their blood glucose is in target range as outlined in DMMP. Student will be allowed extra time to finish and makeup any homework if missed due to diabetes issue. 	School Staff
Attendance	Student will not be penalized for absences, tardiness, or unfinished home- work required for medical appointments, illness, visits to the office, or time necessary to maintain blood glucose control. The parents understand a note from them or an excuse from the physician will be turned in as necessary according to the school handbook.	School Staff
Cellphone	Student shall have permission to carry a cell phone for use in calling or texting parents for diabetes related issues- the cell phone will remain concealed and only in use for diabetic needs.	School Staff
Communication between School/Home	 All communication to be done via logbook, email and verbally. All questions concerning diabetes are to be directed to the parent, not to the student, this includes but is not limited to food eaten in classroom, cafeteria or to treat a low and the carrying of diabetes related supplies. 	Parent / School Staff
Diabetes Supplies	 Student will carry supplies at all times including glucagon kit - including but not limited to classrooms, cafeteria, and extracurricular activities. Extra supplies to be kept in office and available to student/parent at all times At no time will the diabetes supplies be locked up. 	Parent / School Staff
Field Trips	Student shall be permitted to participate in all school-sponsored field trips and extracurricular activities (sports, clubs, and enrichment programs) without restriction and with all of the accommodations and modifications, including necessary trained supervision by identified school personnel, set out in this plan.	School Staff
Food	 Parent will provide carbohydrate information on all food brought from home. School will provide carbohydrate information on all food served in cafeteria. Student will be allowed snacks anytime and anywhere as needed, including but not limited to the classroom, cafeteria, gym, hallway and extracurricular activities. 	School Staff
Medical Needs Awareness	Student is allowed to wear a medical alert object.	Parent
Insulin injections Blood glucose checks	 As stated in attached DMMP: Student shall be allowed to monitor blood glucose daily in locations including but not limited to the classroom, cafeteria, gym, hallway and extracurricular activities. Student needs help in insulin injections, counting carbohydrates for lunch. Student is allowed self-management in blood glucose checking. 	School Staff
Substitute Teachers	Substitute teachers are to be informed prior to beginning of class and allow student to carry on with "normal" diabetes routine for the least disruption as possible.	School Administration
Training of Staff	 The school shall have at least three (3) staff trained in diabetes care, including insulin and glucagon administration. School will have at least one trained staff on site when student is in attendance. 	School Administration
Water/Bathroom Hall pass	 Student will be allowed unlimited access to water and the bathroom. Student shall have a permanent hall pass for water, bathroom, and going to the office for diabetes needs. 	School Staff
