## Instructions for Accessing Policies

Beaumont is in the process of merging various hospital policies and moving them to our corporate web page. These instructions will help you access policies that you should familiarize yourself with.

Using the Explorer icon after logging in, select “Documents” on the blue menu bar, and select “Policies” from the drop-down window

Use the link in the **green box** (see above) to locate the following Policies:

Enter the following policies using the search box

- Undergraduate & Graduate nurse Clinical Placement
- Indwelling Urinary Catheter, Adult & Pediatric Patients
- Pain Management in the Adult and Pediatric Populations
- Standard Precautions
- Restraint Policy: Guidelines for the Use of Restraints

The remaining policies can be located by selecting the “Beaumont Health System” link circled in yellow above

- Patient Identification
- Under Patient Care/Patient Care Corporate/Patient Rights/322
- High Alert Medications
- Under Medication Management/Medication Policies/1004
- Adult IV PUSH Medication Administration
- Under Medication Management/Medication Manual, Corporate Medication Policies/1017
- Isolation Practices
- Under Infection Control/Infection Control manual, Corporate/Isolation Precautions
- Restraints
- Under Patient Care/Patient Care Corporate/General Information/240

**NOTE:** If there are any questions about the above listed policies, please contact the Administrative Nurse Manager, Associated Nurse Manager, or Clinical Nurse Specialist/Educational Specialist on the unit.
