Graduate Nurse Residency Program

Our innovative Graduate Nurse Residency program for new graduate nurses offers new knowledge and development promoting exemplary professional practice. The Graduate Nurse Residency program is designed to be comprehensive, yet individualized, with a dynamic curriculum that reflects best practice and focuses on easing the transition of the graduate nurse into the hospital environment. The program stretches over a twelve month period of time, consisting of both a precepted and non-precepted portion, to provide ongoing support through coaching, mentoring and recognition for new nurse graduates.

Program benefits:

- *Clinical Nurse Specialists guide educational activities in a variety of settings to allow the learner to take an active role in the learning process.*
- *Learning activities will be utilized that promote critical thinking and problem solving including simulation, case studies, and clinical narratives.*
- *Facilitate smooth transition to practice by bridging education and nursing practice.*
- *Provide ongoing support and mentoring for new graduate nurses throughout the first year of entry into practice.*
- *Introduction to numerous Beaumont nursing experts and other Health System resources.*
- *Opportunity to develop organizational and prioritization skills.*

*1-year residency
program for
Graduate Nurses*
